**Subject:** Turn Lane Design-Update

The current design guidance for Turn Lane Design is contained in the ADOT Traffic Engineering Policies, Procedures, and Guidelines Section 430 dated January 2000. The Traffic Engineering design guideline for turn lanes was adopted by design memorandum on February 25, 1999 and superceded the 1996 Roadway Design Guidelines Sections 408.9 and 408.10. The Traffic Engineering PGP may be viewed at the following website:  
<http://www.dot.state.az.us/ROADS/traffic/pgp.htm>

Please forward this information to your project managers, designers, consultant personnel and District development coordinators. Thanks.
